Our Mission Statement

**This is how
we bring
spaces to
life.**

Our Code of Conduct

For Our Clientele

We are a valuable strategic partner for private and business clients throughout Switzerland. Collaboration with our team inspires and provides ideas for interior design solutions.

For Our Team

We have an open, respectful and trusting work culture. As a company, we encourage taking responsibility and we recognise achievement. We network company-wide and regard linguistic and cultural differences as enrichment. We are committed to equality and oppose discrimination in any form.

For Our Shareholders

We are an owner-managed company and operate with the long-term objective of generating profits in order to secure the future of the company and thereby preserve employment opportunities. We are guided by strategy and transparent processes, in order to manage projects and revenues and achieve our goals.

For our Partners

We cultivate an open and trusting dialogue with our partners. We stand behind our commitments and honour our agreements.

For Society and the Environment

We sell durable products and raise awareness for sustainable consumption. We are gradually optimising our energy footprint, assume social responsibility and comply with legal regulations.
